

TwinBond Tape

DOUBLE-SIDED FOAMTAPE

✓ First attachment for façade panels.

Technical Info

- Glue: modified acrylate.
- Foam: closed cellular polyethylene.
- Protective foil: blue silicone paper.
- Density: 55 kg/m³.
- Adhesive power: 18N/25 mm after 1 minute 19N/25 mm after 20 minutes.
- Temperature resistance: -40°C to +100°C.
- Application temperature: +15°C to +30°C.
- Thickness: 3mm.
- Width: 12 mm.
- Length: 25 meter.
- First test foundations based on PE, PP, silicones and bitumen for adhesion.
- Shelf life: 24 months, keep dry, cool and frostproof.

Packing

TwinBond Tape black - 3mm

Product

Characteristics

TwinBond Tape is a double - sided tape that consists of a closed polyethylene foam, covered with acrylate glue. TwinBond Tape has a high immediate adhesive power and very good anti-tearing strength.

Applications

Support for vertical bonding and determination of the thickness of the adhesive layer.

Use

- Apply on dry and clean surfaces. If necessary, clean with TwinBond Clean and / or TwinBond Foam.
- Press firmly.
